PROJECTS

EcommerceHub — Enterprise Multi-Vendor Platform

Spring Boot · React · Redux · MySQL · Spring Security · Stripe API

- **Full-Stack Marketplace:** Engineered a production-grade multi-vendor e-commerce platform with separate customer, admin, and seller portals using Spring Boot and React + Redux, with real-time inventory management.
- **Security & Payments:** Implemented JWT-based auth with RBAC via Spring Security and integrated Stripe API for secure end-to-end payment processing.
- **Data Layer:** Designed complex JPA/Hibernate entity relationships on MySQL with pagination, advanced sorting, and full-text search.

FullStack Trading Platform

Spring Boot · React · Redux · PostgreSQL · CoinGecko API · WebSocket · JWT

- **Real-Time Market Data:** Integrated CoinGecko API for live cryptocurrency prices, market cap, volume, and price charts with WebSocket-driven real-time updates across the platform.
- **Wallet & Trading Features:** Implemented user crypto wallets with wallet-to-wallet transfer between users, buy/sell order simulation, portfolio tracking, watchlists, and full trade history — all secured with JWT auth and RBAC.
- **Secure Architecture:** Applied Spring Security with JWT, encrypted transaction handling, and optimised PostgreSQL schemas using JPA/Hibernate.

ACHIEVEMENTS

- **Runner-Up — Startup Resurrection: The Revival Challenge (PW IOI, Bengaluru, 2024):** Secured 2nd place in a competitive business revival challenge, demonstrating entrepreneurial problem-solving and strong communication under pressure.
- **IELTS Band Score 8.0:** Achieved exceptional English proficiency across Listening, Reading, Writing, and Speaking.
